

SUPRABHAT

Software Engineer III | Frontend Developer | React • TypeScript • UI/UX • Python

Email: suprabhatkumar02@gmail.com | Phone: +91 78920 08290 | Location: Greater Noida West, UP, India | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Results-driven Software Engineer III and Frontend Architect with 6+ years of expertise building scalable, data-intensive web applications using React.js, TypeScript, and Redux Toolkit. Proven track record delivering enterprise-grade SaaS platforms and dashboard solutions across global cross-functional teams spanning Denmark, China, and Australia. Skilled in Azure DevOps, Python/FastAPI, PostgreSQL, MongoDB, and GraphQL. Champion of rendering performance optimization, clean frontend architecture, WCAG accessibility standards, reusable component systems, and Agile/Scrum delivery.

CORE COMPETENCIES

Frontend: React.js • Next.js • TypeScript • JavaScript (ES6+) • Redux Toolkit and RTK-Query • React Query • HTML5 • CSS3 • Tailwind CSS • Bootstrap
Backend & Cloud: Python • FastAPI • Node.js • PostgreSQL • MongoDB • REST APIs • Azure DevOps • Azure Services
Tools & Practices: AG-Grid • Ant Design • Chakra UI • Git • Agile/Scrum • WCAG Accessibility • State Management • Performance Optimization

PROFESSIONAL EXPERIENCE

Software Engineer III • Topsoe

May 2025 – Present

- Architect and deliver data-intensive React.js/TypeScript UIs leveraging Azure services, Redux Toolkit, and enterprise design systems with strong focus on rendering performance, scalability, and clean frontend architecture.
- Drive full-stack engineering best practices — building reusable component libraries, optimizing state management, and leading API integrations using Python/FastAPI and PostgreSQL for complex industrial-scale applications.
- Own cross-cultural stakeholder engagement with teams in Denmark and China; lead requirement discussions, technical clarifications, and delivery cycles within distributed Agile/Scrum environments across Europe.

Associate Projects (Front-End Developer) • Cognizant

Feb 2024 – Apr 2025

- Designed and delivered scalable SaaS web portals, translating complex client requirements into responsive, high-performance React/TypeScript interfaces while consistently meeting strict client SLA commitments.
- Collaborated daily with Australian R&D teams for new feature implementation, driving cross-timezone delivery alignment, code reviews, and Agile sprint execution for global portal deployments.

Implementation Web Developer • TrueBlue

Dec 2023 – Jan 2024

- Designed robust frontend architectures with code splitting, lazy loading, and advanced state management; integrated REST APIs via Axios/async-await and ensured full WCAG accessibility and cross-browser compatibility.

Senior Front-End Developer • MobileCoderz

Feb 2022 – Nov 2023

- Led UI development converting wireframes and prototypes to pixel-perfect responsive interfaces using React.js, HTML5, CSS3, and JavaScript, with rigorous cross-browser testing and WCAG accessibility compliance.
- Mentored junior developers, led architecture review sessions, and championed adoption of modern tooling and industry best practices across the development team.

UI Developer • Swaragh Technologies

Dec 2019 – Jan 2022

- Developed and delivered features for BMW Group's internal dashboard using React, TypeScript, AG-Grid, GraphQL, MongoDB, and Ant Design; ensured seamless backend API integration and cross-platform stability.

EDUCATION

B.E. – Information Science & Engineering • Visvesvaraya Technological University, Bangalore

2015 – 2019
